MR. SPEAKER: Your Committee on Contingent Expenses, to whom was referred the accompanying bill and other data from J. Corbley Pool, of Santa Barbara, pertaining to the proposed alterations in the ceiling or other portions of the Assembly Hall, would state that the resolution to the effect that expert services be rendered on the question of acoustics for the Assembly Hall, was passed by the Assembly as a Committee of the Whole, and never came under the consideration of your Committee on Contingent Expenses. In order that no injustice be given to the expert or to his services, whatever they may have been, we hereby recommend that the bill, amounting to \$200, be paid, but under protest, in order, as above explained, to absolve your committee of any indiscretion in the matter.

Yours respectfully,

FARWELL, Chairman.

ACOUSTICAL REPORT ON ASSEMBLY CHAMBER.

SACRAMENTO, CAL., February 3, 1913.

Mr. W. F. McClure, State Engineer, State Capitol, Sacramento, Cal.

Sir: In accordance with your request and the resolution passed in the Assembly on Tuesday, January 28th, I have made a thorough investigation of the acoustic properties of the Assembly Chamber and herewith report my findings and estimated cost of correction.

In acoustics a number of elements must be considered. The most common are direct and indirect echo, reverberation and resounding, each requiring separate and distinct treatment.

The chief difficulty lies in the proportions of the room. I also find some reverberation which creates rarification of sound in certain sections of the room. Correction may be made by some alterations of the interior of the chamber, principally lowering the ceiling of room and making some changes in the gallery. The difficulties have been magnified by an erroneous attempt to correct the same through the use of felt and heavy carpets.

The present difficulty is greatly increased by the fact that the parties failing to hear well become uninterested and contribute to the already defective acoustics of the room by talking and rattling of papers.

My estimate of cost to correct the acoustic properties of the Assembly Chamber is \$12,200, not including commission. I will undertake the work, if commissioned to do so, for \$2,000 commission.

Respectfully,

J. CORBLEY POOL.

SANTA BARBARA, CAL., February 3, 1913.

Assembly Branch, California Legislature, Session 1913, debtor,
to J. Corbley Pool.

For investigation of acoustic properties of Assembly Chamber,
together with report and estimate of cost of correction----- \$200 00

Mr. Farwell moved the adoption of the report.

MR. SPEAKER: Your Committee on Contingent Expenses, to whom was referred the accompanying resolution:

Resolved, That eighty new mahogany desks be purchased for the use of the Assemblymen, to match in finish and style the present chairs; also such other new and appropriate furnishings as may be required to complete the furnishings of the Assembly Chamber, including desks and chairs that will match the other furniture, such as desks and chairs of the room, and will properly accommodate the duly accredited press representatives in the Assembly, said purchases to be made by and under the direction of the Committee on Contingent Expenses. Said desks and furnishings shall be purchased from the appropriation made by the Legislature of 1909, Statutes of California, Chapter 6, for the purchase of furniture and furnishings of the Senate and Assembly chambers and committee rooms, upon the approval in writing of the President of the Senate and the Speaker of the Assembly. The order for said furniture shall be placed with the warden of San Quentin prison, John E. Hoyle, or with the warden of Folsom prison, James A. Johnston, so that the material and labor shall be furnished by whichever institution, in the opinion of the committee in charge, is best fitted to carry out the work.

We would state that having seen the sample desk now in the Senate chamber, and realizing that the files are liable to be placed on the top of the roll-top portion of the desk, instead of in the drawers as originally designed, and furthermore, that even the use the said drawers would require might seriously interfere with space between the members' chairs for the use of the stenographer or visitor—therefore we would state that we have had the same under consideration, and respectfully report back, and recommend that it be not adopted.

The insurance commissioner shall immediately upon assuming the administration of the collection and disbursement of the moneys referred to in the preceding section, cause to be created in the state treasury a fund to be known as "accident fund." Each such employer shall contribute to this fund to the extent of such premiums or assessments as the commissioner shall deem necessary to pay the compensation accruing under this Act to employees of such employers or to their dependents, and to provide the reserve hereinafter referred to, which premiums and assessments shall be levied in the manner and proportion as hereinbefore and hereinafter set forth. Said premiums and assessments levied for such purposes shall be subject to readjustment from time to time by the insurance commissioner as may become necessary.

SEC. 38. The insurance commissioner shall be entitled to inspect the plant, workroom, shop or premises of any subscriber contributing to said accident fund, and for such purposes to appoint inspectors who shall have free access to all such premises during the regular working hour.

SEC. 39. Said insurance commissioner shall determine the amount of the premiums or assessments which the subscribers of said accident fund shall pay for said administration and the payment of said compensation benefits by him, in accordance with the nature of the business in which said subscribers respectively are engaged, and the probable risk of injury to their employees, the experience of said risk and the conditions under which said work is performed, and shall fix the premiums and assessments at such amounts as in his judgment shall be sufficient to enable him to pay to the employees, or their dependents, of such subscribers all sums which may become due and payable to them under the provisions of sections thirty-six to forty-eight, inclusive, of this Act, together with the expense of conducting said business. In fixing said premiums or assessments payable by such subscribers, said insurance commissioner may take into account the degree of hazard, the condition of the plant, workroom, shop or premises of such subscriber in respect to the safety of the employees therein, and the experience of the risk, together with the conditions under which said work is performed and he may, from time to time, change the amount of premiums payable by any of the subscribers, as circumstances may require, and as said conditions, risk and hazard may justify, and may increase the premium of any subscriber neglecting to provide safety devices required by law.

SEC. 40. If any employer shall make default in payment of any contribution, premium or assessment required as aforesaid by the insurance commission, the sum due shall be collected by an action at law in the name of the state as plaintiff, and such right of action shall be in addition to any other right of action or remedy.

SEC. 41. The insurance commissioner, annually, on the first day of January or within thirty days thereafter, shall prepare under oath, and file in his office, a statement of the condition of such accident fund on the thirty-first day of December, next preceding, exhibiting therein such facts as may be applicable to the business of operating, maintaining, investigating and disbursing said accident fund, together with such other information as is necessary to reveal the true financial condition of such accident fund and its liabilities.

SEC. 42. Any employer subject to the provisions of Sections 36 to 48, inclusive, of this Act, who has complied with all the rules, regulations and demands of the industrial accident commission and the insurance commissioner may withdraw from said accident fund at the expiration of the period of one year from the date upon which he became subject to the provisions of Sections 36 to 48, inclusive, of this Act; *provided, however*, that he shall give written notice of such withdrawal to said insurance commissioner at least thirty days before the expiration of such period; *and provided, further*, that if at the time of such withdrawal liability may exist against such employer for any contribution, premium or assessment as provided in Section 39 hereof, such employer shall either pay into said accident fund such contribution, premium, or assessment in cash, or shall otherwise protect and indemnify said insurance commissioner against such liability in such reasonable manner as he may require. If there be not, at any time, in said accident fund, in cash over and above the unearned premium on undetermined risks, sufficient money for the payment of accrued losses and expenses, said insurance commissioner shall make an assessment for the amount needed to pay such losses and expenses upon the subscribers to such fund liable to assessment therefor, in proportion to their several liabilities. In determining the unearned premium and the accrued losses and expenses for the purpose of Sections 36 to 48, inclusive, of this Act, said insurance commissioner shall be subject to and governed by the provisions of law applicable to stock companies engaged in furnishing and providing insurance against loss under the terms and provisions of this Act.

SEC. 43. Said insurance commissioner shall invest and keep invested the funds in said accident fund, excepting such cash as may be required in the transaction of his business therein, in bonds and other property in the same manner as is provided by the laws of this state, with respect to investment of the funds and properties of companies, stock companies, corporations and other associations engaged in the business of insuring against loss from liability on account of damages obtained for personal injury and against loss on account of the compensation benefits provided for by this Act.

SEC. 44. In case any controversy shall arise between the insurance commissioner and any employer subject to the provisions of Sections 36 to 48, inclusive, of this Act, relative to any rule or regulation adopted by said insurance commissioner, or any decision made by him in respect to the collection, administration and disbursement of such funds, or in case any controversy shall arise between any employee claiming compensation under the provisions of this Act and said insurance commissioner, all such controversies of every kind and nature shall be subject to review by the industrial accident commission in like manner and with the same force and effect in all respects as are claims for compensation under this Act.

SEC. 45. The books, records and pay rolls of each employer subject to the provisions of Sections 36 to 48, inclusive, of this Act shall always be open to inspection

by the insurance commissioner, or his duly authorized agent or representative, for the purpose of ascertaining the correctness of the amount of the payroll reported, the number of men employed, and such other information as the commissioner may require in the administration of said fund. Refusal on the part of any such employer to submit said books, records and payrolls, for such inspection shall subject the offending employer to a penalty of fifty dollars for such offense, to be collected by civil action in the name of the insurance commissioner, and paid into the accident fund, and the individual who shall personally give such refusal shall be guilty of a misdemeanor.

SEC. 46. The insurance commissioner shall issue proper receipts for all moneys so collected and received from employers, as aforesaid, and shall take receipts for all sums paid to employees for compensation under the provisions of this Act, and shall keep full and complete records of all business transacted by him in the administration of such funds. He may employ such deputies and assistants and clerical help as may be necessary for the proper administration of said fund and the performance of the duties imposed upon him by the provisions of this Act, and may also remove them. The insurance commissioner and such deputies and assistants shall be entitled to receive their actual and necessary expenses while traveling on the business of the fund, but all such salaries and all expenses so authorized by the provisions of this Act shall be charged to and paid out of said accident fund.

SEC. 47. Disbursements from said accident fund shall be made promptly when due, but only upon warrants approved by the state board of control upon vouchers therefor transmitted to it by the insurance commissioner. If at any time there shall not be sufficient money in said fund wherewith to pay the same, the employer on account of whose workmen it was that such warrant was drawn shall pay the same, and he shall be credited upon his next contribution to such fund the amount so paid, with interest thereon at the legal rate, from the date of such payment to the date such next following contribution becomes payable, and if the amount of the credit shall exceed the amount of the contribution he shall be repaid such excess.

SEC. 48. If this Act shall be repealed, all moneys which are in the accident fund at the time of such repeal shall be subject to disposition under the direction of the superior court for the county of Sacramento, with due regard, however, to the obligation incurred and existing to pay the compensation under the provisions of this Act, and the expenses of administering said fund.

EXPLANATION OF VOTE.

The following explanation of vote was sent to the desk, and ordered printed in the Journal:

MR. SPEAKER: In explanation of my refusal to vote on Senate Bill No. 905, I wish to state that it has not been my privilege to study the bill as amended and arrive at any satisfactory conclusion as to the merits and demerits of the bill. It was my hope that the bill would be fully discussed before its final passage, and its good and bad features brought out, so that those (if there were any others) who had not definitely decided upon their action might vote with some slight degree of intelligence at least.

Contrary to my expectations, and before the bill had been discussed before the Assembly scarcely an hour, the previous question was moved and carried and final vote thereupon had upon a measure of fifty-nine pages, and one of the most important, if not the most important, before the present Legislature. Under the circumstances, I did not feel that I could vote conscientiously upon the bill.

GEO. H. JOHNSON.

Pipher, each of whom was, before taking any testimony, duly sworn to correctly take down in shorthand and afterwards correctly transcribe the testimony of the witnesses testifying before the committee; that the testimony so taken down and transcribed by said reporters consists of eight hundred and eighty-nine (889) typewritten pages, contained in three bound volumes, a copy of which testimony is returned with this report to be filed with your honorable body or disposed of as you may deem proper.

Your committee further reports that the evidence introduced shows that when Frank C. Jordan assumed the duties of Secretary of State he appointed Anita A. Brewer recording clerk in the office of the Secretary of State at a salary of sixteen

hundred (\$1,000) dollars per year, and that she has, ever since her appointment, held that official position and drawn that salary; that during said time she has actually performed the duties of such recording clerk for about one month and the balance of the time has been acting in the capacity of stenographer for said Secretary of State and for Robert V. Jordan, who had charge of the corporation department in said Secretary of State's office, and she has performed said stenographic work in the private office of said Frank C. Jordan, in the office of the Secretary of State.

In addition to attending to the said stenographic work, said Anita A. Brewer has been engaged in making up and preparing for the Secretary of State's office the daily report made by the Secretary of State to the State Controller, showing the number of automobiles registered for which license fees have been obtained, and since about the month of August, 1911, has been engaged in furnishing carbon copies of such reports to various persons, firms and corporations in the State of California, for compensation, that the said work of making and selling said carbon copies of reports as aforesaid was done with the knowledge and consent of said Secretary of State, Frank C. Jordan, who in some instances solicited certain persons or corporations to purchase said reports; that from August, 1911, to January, 1912, other persons not connected with the office of the Secretary of State, were also engaged in furnishing like reports to different persons, firms and corporations; that about the month of December, 1911, the practice was commenced of taking the applications for automobile registrations, as soon as they were filed, to Anita A. Brewer in the said private office of said Frank C. Jordan, and there keeping them for the remainder of the day on which they were filed so that the public was deprived of the opportunity of examining them on that day. That the information obtained from the said applications was, according to the testimony of several witnesses, valuable to those who were willing to pay for it, only when obtained on the day that said applications were filed, and that the said practice of so keeping such applications away from the public, drove out of business those persons, not connected with the office of Secretary of State, who had theretofore been making their livelihood from furnishing such information, and caused all persons desiring such report to apply to said Anita A. Brewer to furnish the same; that as a result of the said practice of withholding said applications from the public, a large business in that line was established and large sums of money collected for work so done. That the said business was so conducted and the work performed under such circumstances that the funds collected therefrom became and were the property of the State of California, and should have been paid into the treasury of the State by said Secretary of State, but that no part of said sum has been so paid into the said treasury. Your committee has been unable to ascertain the exact amount so collected and unpaid into said treasury for the reason that according to the testimony all entries, records, books, papers and documents of every kind relating thereto were destroyed before your committee commenced the investigation, some according to the testimony having been destroyed between the time that the appointment of the committee was requested by the Secretary of State and the date that the committee commenced taking testimony, and practically all attempts to elicit information from said Anita A. Brewer, relative to the sums collected, were met with the response, "I can't remember," and from Frank C. Jordan that he did not know. Your committee was, therefore, forced to collect such information from persons who had paid the money. Not knowing all the persons who had paid such amounts, your committee was unable to get, in that way, a complete account of the moneys so collected, but a sufficient number of persons were found, who produced returned checks for payments made, to show that more than fifty-seven hundred (\$5,700) dollars was so collected in less than sixteen months, and said Anita A. Brewer testified that other parties besides those produced, had paid various sums of money, the amount of which she could not give, but would not swear that they would not aggregate two thousand (\$2,000) dollars additional.

The testimony further shows that a branch office of the Secretary of State's office was established by Frank C. Jordan in the city of Los Angeles, and the same was placed in charge of Frank M. Jordan, son of said Secretary of State. That the purpose in establishing that branch office was to receive applications for automobile registrations in that city; that at said branch office the public records kept of automobile registrations were treated by Frank M. Jordan as private records, and the public was not given access to the same. The applications for automobile registrations were there also so handled that the public was not given access to them on the day on which they were filed, and the same system of selling like reports as those furnished for compensation from the main office at Sacramento was carried on by Frank M. Jordan, in charge of said branch office; that large sums of money were collected at said branch office by said Frank M. Jordan from the selling of said reports that should have been turned into the treasury of the State of California by said Secretary of State, but that no part of said amount has been so paid into said treasury. That the exact amount so collected by said Frank M. Jordan at said branch office has not been ascertained by your committee, but the evidence is sufficient to show that it aggregated, at least, twenty-one hundred (\$2,100) dollars.

Your committee, therefore, feels justified, under the evidence introduced, in

reporting that at least seventy-seven hundred (\$7,700) dollars has been so collected in the office of the Secretary of State through his employees and agents and that the same has not been turned into the treasury of the State. We recommend that the Attorney General be requested to take such steps as he deems proper for the collection of all said sums of money or such sums as may be found to be due to the State of California.

We further find that in failing to account for the aforesaid moneys and pay them into the state treasury, the said Secretary of State has failed to fulfill his obligations to the State of California, and in permitting public records to be withheld from public inspection as aforesaid has been guilty of malfeasance in office.

Your committee further recommends that the attention of the Attorney General of California be called to the testimony given by Anita A. Brewer before the committee to the end that said Attorney General may take such action with reference to said testimony as he may deem proper.

Respectfully submitted.

RESOLUTIONS.

The following resolutions were offered:

By Mr. Ellis:

WHEREAS, Thirteen men now confined in the San Quentin and Folsom prisons are under sentence of death by virtue of judicial decree; and

WHEREAS, In the year 1912 an initiative petition, subscribed to by over forty-two thousand qualified electors of the State of California, was duly filed with the Secretary of State, with a view to ultimately abolish capital punishment, but failed of expression by virtue of lapse of statutory time; and

WHEREAS, The California Anti-Capital Punishment League is now circulating an initiative petition relative to the question of the abolition of capital punishment, said petition to place said question on the ballot at the next state election; and

WHEREAS, The execution of the men now under sentence of death in the State of California will but subserve the purpose of arbitrary destruction, and be in accord with a law enacted before equal suffrage obtained; and

WHEREAS, The reprivieging of the present condemned men until such time as the people of the State of California can express their will at the polls on the question of the abolition of capital punishment will be in accord with the modern doctrines of

conservation, and tend to create that regard for the sacredness of human life as is essential to its protection; therefore, be it

Resolved, That the Assembly of the Legislature of the State of California earnestly request the Governor of California to grant reprieves to all men confined in the state penitentiaries awaiting the death penalty until said question of the abolition of capital punishment is determined by the electorate.

Resolution read, and referred to Committee on Rules.

By Mr. Polsley:

WHEREAS, The progress, happiness and prosperity of the people of a nation depend upon a homogeneous population having mutual aims and high aspirations for the protection of the home, for guarding the interests of labor, for the encouragement of industry and for the dissemination of knowledge;

WHEREAS, The influx from the overpopulated Asiatic nations, of people who are unfit for American citizenship and for assimilation with the Caucasian race, whose aims and purposes are not in sympathy with our people, has resulted and will result in lowering the American standard of life, the dignity and wage-earning capacity of American laborers and the development of the national qualities needed to accomplish the destiny hoped for by the fathers and patriots of the republic;

WHEREAS, The acquisition and holding of agricultural lands in the State of California and other states of the Union has already disturbed, and will continue if not prevented in some legal way to seriously disturb, the economic and social welfare of the people;

WHEREAS, In the State of California there exists a large number of agricultural communities where the evils growing from such acquisition and holding of agricultural land demand early correction at the hands of the State and Nation within the respective jurisdiction of each;

WHEREAS, The Legislature of the State of California, by virtue of its sovereign right in the premises, which rights it hereby asserts, has passed a law intended to remedy this evil;

WHEREAS, There is now in force between the Government of the United States and the Empire of Japan, one of the Asiatic nations affected by the provisions of said law, a treaty granting certain rights and privileges to the citizens of each nation;

WHEREAS, It is reported that the Empire of Japan, one of the contracting parties to said treaty, is alleging that the State of California is exceeding its authority as a state, by the passage of said law;

WHEREAS, Pending consideration by the Legislature of the State of California of such law, the Hon. William J. Bryan, Secretary of State of the United States, representing the President of the United States, in a conference with the members of the Legislature, expressed the following sentiments: "The President has impressed upon me at all times that I should emphasize the fact that his only purpose is to confer with the Legislature as to the national and international phases of the question under consideration, and that he confers not as an unsympathetic friend, but as one who desires to aid to the extent of his ability where he has not only a constitutional duty to perform, but where he may be assumed to be able to judge of the effect of legislation upon our relations with other countries";

RESOLUTION.

The following resolution was offered:

By Mr. Gates:

Providing for a legislative investigation as to an alleged unlawful combination, which exists to maintain high and unwarranted prices for fish.

WHEREAS, The cost of living in California has for many years gradually and steadily increased until the payments for actual necessities of life have become a burden and a just cause of complaint; and

WHEREAS, Practically all fish that are sold in this State are taken from waters belonging to the people of the State of California; and

WHEREAS, The said waters are largely stocked with fish by this State and the fish life in said waters is propagated and protected at the expense of the people of this State; and

WHEREAS, The fishermen and dealers in fish pay only a small percentage of the cost of propagating said fish and of stocking said waters and of conserving and protecting the fish life therein; and

WHEREAS, Under the existing conditions it is claimed that the fishermen are not receiving a fair return for the results of their labor and that the consumer is paying a price for fish that is unjust and burdensome and that the difference in the price between what is paid to the fisherman for his catch of fish and the price charged to the consumer is unjust and unwarranted; and

WHEREAS, It appears that the difference between what is paid to the fisherman for his catch and the price charged to the consumer is due to a combination which exists in violation of law, to maintain these high and unwarranted prices; and

WHEREAS, The anti-trust law now in force in the State of California has not been productive of any appreciable results so far as the reduction in the cost of living is concerned; therefore, be it

Resolved, That a special committee of five Assemblymen be appointed by the Speaker of the Assembly to investigate the conditions which permit such inequality in the cost of catching fish and the price of fish to the consumer and recommend to the Legislature at its next session such statutes as may ameliorate the present condition; and be it further

Resolved, That said committee shall have power to subpoena witnesses, send for persons and papers and issue subpoenas when necessary; and be it further

Resolved, That there is hereby set aside from the Contingent Fund of the Assembly for the purpose of defraying the necessary traveling and contingent expenses of said committee, the sum of \$2,000.

SENATE JOINT RESOLUTION No. 18.

Memorializing the Congress of the United States for favorable consideration of the request of the Legislature of the State of California, for investigations and surveys by the California Débris Commission under the provisions of an Act of Congress, approved March 1, 1893, to aid in the preparation and making of a report on a project for the relief from floods in the San Joaquin Valley and the delta of the Sacramento and San Joaquin rivers and for improvements in aid of commerce and navigation.

WHEREAS, Conditions injuriously affecting vast areas of valuable land adjacent to, and the interests of commerce and navigation in, the river systems of the San Joaquin Valley, within the power of the California Débris Commission to correct under the provisions of an Act of Congress, approved March 1, 1893, creating said commission and defining its duties, are identical with those existing in the river systems of the Sacramento Valley and require like remedial treatment; and

WHEREAS, The Sacramento and San Joaquin rivers form a delta, common to both, and by connecting water ways, their flood waters mingle, frequently involving great damage to property and to navigation; and

WHEREAS, The work involved and plans contemplated in said rivers and said delta, under the requirements of said Act, should be co-ordinated into one harmonious project; and

WHEREAS, The report of said commission made in accordance with the requirements of said Act, including maps and containing a project together with estimate of the cost thereof, for the relief from floods in the Sacramento Valley, transmitted to the Congress of the United States by the secretary of war, June 26, 1911, and

approved and recommended by him for adoption by Congress, now designated as House Document No. 81, sixty-second Congress, first session, applies only to the Sacramento River conditions, and said commission strongly urges "that work begin at once and provision be made for its early completion"; and

WHEREAS, As delay in treating these conditions in the river systems of the Sacramento Valley has greatly added to the injury done as well as to the cost of the proposed project, the same results will follow delay in treating like conditions in the river systems of the San Joaquin Valley; and

WHEREAS, As investigations and surveys are required preliminary to the making of a report by said commission on said river systems in the San Joaquin Valley, it is of the utmost importance that such investigations and surveys be commenced without unnecessary delay; and

WHEREAS, As said remedial work necessary in said river systems and said delta make the problem a vital one pressing for an early solution, the legislature of the State of California, has by appropriate legislation adopted the project contained in said report, has appropriated funds therefor and has in other ways indicated its willingness to co-operate with the United States, in furtherance of this great work; therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the legislature of the State of California, in regular session assembled, memorializes the congress of the United States, for such legislation and direction, as will provide for such investigations and surveys by the California Débris Commission under the provisions of said Act, thereby hastening the preparation and making of the report on a project for the relief from floods in the San Joaquin Valley and said delta and for improvements in aid of commerce and navigation; be it further

Resolved, That our Senators and Representatives in Congress, be and they are hereby requested to use all honorable means to secure favorable consideration of this memorial; and be it further

Resolved, That duly authenticated copies of this memorial be transmitted by the Governor of the State of California, to the Senate and House of Representatives of the United States, the Secretary of War, the Chief of Engineers, United States army, the California Débris Commission, and to each of our Senators and Representatives in Congress.

Upon the filing of the petition provided for in Section 4225*d* of this code, the clerk of the board of supervisors or of the legislative body of the municipality must forthwith notify the secretary of the state board of health of the fact. The state board of health shall constitute an examining and licensing board for the purpose of determining the fitness of and of licensing applicants for the office of sanitary inspector, and shall adopt uniform rules and regulation as to the time and place of holding examinations, the manner of giving notice thereof, the subjects to be covered by and the details of such examination. In the event that the license of any sanitary inspector is revoked by the state board of health such sanitary inspector shall *ipso facto* become ineligible to hold any office as sanitary inspector and his office as such sanitary inspector shall forthwith become vacant. The board of supervisors or legislative body of such municipality, within thirty days after the receipt of a list of licensed persons certified by the state board of health as herein provided, shall appoint a licensed sanitary inspector. Vacancies in the office of sanitary inspector shall be filled by appointment of the board of supervisors or legislative body of a municipality, for the unexpired term, and from a like list of licensed persons certified by the secretary

All successful applicants shall pay an additional fee of ten dollars for the license issued to them under this section. All such fees so paid over to such secretary of the state board of health shall at once be paid over to the state treasurer and be placed to the credit of the fund for the traveling and contingent expenses of the state board of health. The secretary of the state board of health may upon a resolution to that effect passed by the state board of health, revoke the license of any sanitary inspector, for such cause as in the judgment of said state board of health may be sufficient.

SEC. 7. A new section is hereby added to said code, to be numbered 4225*g*, and read as follows:

The warrant for the salary and expenses of the sanitary inspector for any month shall not be delivered to him unless his license be unrevoked and until he shall make oath that he has made and filed his report for such month as herein required.

EXPLANATION OF VOTE.

The following explanation of vote was sent to the desk, and ordered printed in the Journal:

MR. SPEAKER: In voting to concur in the amendments made to Assembly Bill No. 642 by the Senate, I did so for the purpose of making a motion to reconsider the vote by which those amendments were concurred in, as I felt that under the circumstances related below those amendments would be concurred in.

The Senate message conveying the amendments was not read before Mr. Johnstone, the author of the bill, requested that the amendments be concurred in. Thereupon the Speaker, then presiding, without asking if there was any objection or further discussion, which is customary in considering such important matters, ordered the roll called.

Not being given what I considered a fair opportunity to state my objections to said amendments, I voted "aye" for the purpose above stated, otherwise I would have voted "no."

W. N. PARRISH, Secretary of Senate.
By J. A. MILLER, Assistant Secretary.

The question being put: "Shall the Assembly concur in the following Senate amendments to Assembly Bill No. 1875?"

AMENDMENT No. 1.

Amend the title of the printed bill as follows: Strike out all of the title after line 1 thereof, and insert in lieu thereof the following: "to provide for the assessment of property in cities governed under freeholders' charters, framed under the provisions of the constitution of this state, for the municipal taxes of such cities, and for the equalization and correction of such assessments by county officers, for the collection and enforcement of the payment of such taxes, including delinquent taxes, by such officers, for the sale and redemption from sale of property sold for the non-payment of such taxes, and for the performance by county officers of the duties of officers of such cities respecting said matters; and to provide for the compensation to be paid to counties by such cities for the services performed by such county officers for such cities under the provisions of this Act."

AMENDMENT No. 2.

Strike out all of the printed bill after the enacting clause, and insert in lieu thereof the following:

"SECTION 1. The duties of the officers of any city governed under a freeholders' charter framed, ratified and approved in accordance with the provisions of the constitution of this state, with respect to the assessment of property in such city for the municipal taxes thereof, to the equalization and correction of such assessment, to the collection, payment and enforcement of such taxes, including delinquent taxes, and to the redemption of such property from sale or other penalty for the non-payment of such municipal taxes, shall be performed by officers of the county in which such city is situated, when such performance is required of them as in this Act provided.

SEC. 2. Whenever the charter of any city mentioned in section one of this Act, or any amendment to such charter, or any ordinance of such city authorized by and adopted under such charter or amendment thereto, shall provide that the duties of the council or other legislative body, assessor, tax collector or other officers of such city with respect to the assessment of property in such city for the municipal taxes thereof, to the equalization and correction of such assessment, to the collection, payment and enforcement of such taxes, including delinquent taxes, and to the redemption of such property from sale or other penalty for nonpayment of the municipal taxes of such city, shall be performed by certain designated officers of the county in which such city is situated, as set forth in such charter, or amendment thereto, or in such ordinance, it shall be the duty of such county officers so designated to perform such duties in accordance with the provisions of this Act; *provided, however*, that, the several county officers so designated to perform such duties for such city shall be officers who respectively perform duties of the same character as the officers of such city, whose duties are to be performed by such county officers.

SEC. 3. Upon the taking effect of any such charter, charter amendment or ordinance of such city, providing that the duties of the officers of such city with respect to the matters mentioned in section two of this Act shall be performed by the officers of the county in which such city is situated, a copy thereof, certified by the city clerk of such city, shall be filed with the board of supervisors of such county, on or before the first Monday in February immediately following the taking effect of such charter, charter amendment or ordinance. The board of supervisors shall thereupon cause notice of such charter, charter amendment or ordinance to be given to the several county officers designated therein, and thereafter the assessment list of all property within such city, as contained in the assessment roll made annually by the county assessor and equalized and corrected by the county board of supervisors, of all property assessed for taxation for county purposes in such county shall be the assessment roll of the property within such city assessed for the purpose of the municipal taxes of such city, and such assessment roll shall be used as the basis for the levy of such municipal taxes. If subsequent to the incorporation of such city, additional territory has been added thereto, as originally incorporated, either by annexation of new territory thereto, or by the consolidation of other municipal corporations therewith, it shall be the duty of the county assessor in making the assessment of the property in such city, to list separately the property situated within the limits of such city as originally incorporated, and the property situated within the boundaries of each such subsequent addition of territory thereto, and each such separate list shall be so headed and indicated in such assessment roll that all property within the original limits of such city shall appear therein as being so situated, and all property situated within any territory subsequently added thereto by any such annexation or consolidation, shall appear therein as being so situated, and the date of each such addition of territory shall also be specified therein. As soon as practicable after the first Monday in March next succeeding the taking effect of such charter, charter amendment or ordinance, the city clerk of such city shall deliver to the county assessor of such county, a statement in writing show-

ing, separately, the exterior boundaries of said city, as originally incorporated, and the exterior boundaries of each body of new territory subsequently added thereto, as aforesaid, together with the date of each such addition of new territory; and as soon as practicable after the first Monday in March of each succeeding year, a like statement shall be so delivered showing the boundaries of any new territory so added to such city since the delivery of the last preceding statement, together with the date of such addition of new territory.

Sec. 4. The county auditor of the county in which such city is situated must, on or before the second Monday in August of each year, transmit to the council or other legislative body of such city a statement in writing showing the total assessed valuation of all property within such city, which value shall be ascertained from the assessment roll of such county, equalized and corrected by the board of supervisors thereof in the manner provided by law, and showing the total assessed valuation of all property within the limits of such city as originally incorporated, and the total assessed valuation, separately, of all property in each body of new territory so added to such city subsequent to the original incorporation thereof. Upon the delivery to the county auditor, not later than the first day of September, of each year, of a statement, certified by the city clerk of such city, showing the levy, or rate or rates per cent of taxes levied by the council or other legislative body, of such city, for all municipal purposes for such year, including amounts required for the payment of interest and sinking funds for the bonded indebtedness of such city, and showing separately, the rate of taxes so levied upon all property within the limits of such city as originally incorporated, and the rate upon all property within the boundaries of each portion of such city added thereto subsequent to the original incorporation thereof as aforesaid, the county auditor must compute and enter in a separate column in the assessment books of the property in such city, for such year, to be headed "City Tax, City of _____," (stating name of city), the several sums of dollars and cents to be paid as a municipal tax on the property therein enumerated and assessed as being in such city, using the rate or rates of levy as fixed by the legislative body thereof, and the assessed value as found in such assessment books. Such taxes so levied shall be collected by the county tax collector, at the same time and in the same manner as the county taxes of such county. On Monday of each week, the county tax collector shall pay to the treasurer of such city, the amount of all taxes so collected by such county tax collector for and on behalf of such city, during the preceding week, after making the deduction therefrom hereinafter specified; and whenever any delinquent city taxes, together with costs and penalties thereon, have been paid to the county treasurer, or whenever any property in such city has been sold for the non-payment of the city taxes thereon, and has been redeemed, the county treasurer shall likewise pay to the treasurer of such city, on Monday of each week, the amount of such delinquent taxes, and all costs and penalties thereon so collected by such county treasurer during the preceding week, and the money collected for any such redemption, after making the deductions therefrom hereinafter specified.

Sec. 5. Whenever the duties of the officers of any city with respect to the assessment of property therein for the municipal taxes of such city and to the collection of such taxes, are performed by county officers under the provisions of this Act, the collection of unpaid municipal taxes of such city, levied on any property by such city, shall be enforced by the sale of such property in the same manner and at the same time, and upon the same penalties, as property sold for non-payment of county taxes, and real property so sold may be redeemed within the same time and upon the same terms as property sold for the non-payment of county taxes; and whenever any real property situate in such city has been sold for taxes and has been redeemed, the money paid for such redemption shall be apportioned by the county auditor to, and shall be paid to such city in the proportion which the tax due such city bears to the total tax for which such real property was sold; *provided, however*, that upon the taking effect of any charter, charter amendment, or ordinance to the effect mentioned in section two of this Act, all taxes of such city that shall have been levied prior thereto, including delinquent taxes, shall be collected, the payment thereof enforced in the same manner and upon the same penalties, and property may be sold for the non-payment thereof and may be redeemed from such sale in the same manner and under the same conditions as provided by the laws in force in said city at the time of the taking effect of such charter, charter amendment or ordinance; and such officers of such city as may be provided under the charter or ordinance thereof, shall collect and enforce the payment of such taxes, including delinquent taxes, and do any and all things that may be necessary in the sale of property for the non-payment of such taxes and in the redemption thereof from such sale.

Sec. 6. Whenever any charter provision, or any ordinance of the character mentioned in section two of this Act shall be repealed, the duties authorized by such charter provision or ordinance so repealed to be performed by officers of the county in which such city is situated, shall thereupon cease to be performed by such officers; *provided, however*, that upon such repeal, all taxes of said city that shall have been levied prior thereto, including delinquent taxes, shall, as in this Act provided, be collected, the payment thereof enforced in the same manner and upon the same penalties, and property may be sold for the non-payment thereof and may be redeemed from such sale, in the same manner and under the same conditions as provided by

laws applicable to the collection and enforcement of the payment of county taxes, including delinquent taxes, and to the sale and redemption from the sale of property sold for the non-payment of county taxes; and the officers of such county shall have all the powers and perform all the duties relative thereto as may be provided by law in the case of county taxes and the sale and redemption from sale of property for the non-payment thereof.

SEC. 7. The amount of compensation to be charged by and paid to any county for the performance of services contemplated by the provisions of this Act, for and on behalf of any city in such county, shall be fixed by agreement between the board of supervisors of such county and the legislative body of such city; *provided, however*, that such compensation shall in no event exceed one half of one per cent of all moneys collected for such city as in this Act provided. The board of supervisors shall, by an order spread upon its minutes, direct that the county tax collector and the county treasurer shall deduct from all taxes or moneys in their hands, collected for or on behalf of such city, and before the payment thereof to the treasurer of such city as in this Act provided, the percentage thereof to be charged by such county for the services mentioned in this Act, and such percentage so deducted shall be paid into or transferred to such fund of the county and in such manner as the board of supervisors shall direct.

SEC. 8. This Act shall in no wise affect any other Act or Acts providing that duties of officers of cities may be performed by county officers; and if any such Act or Acts provide for or apply to the performance by county officers of the duties of officers of cities governed under freeholders' charters, this Act is intended to, and does provide an alternative method by which the duties of the officers of any such city with respect to the matters mentioned in section two of this Act may be performed by officers of the county in which such city is situated.

SENATE JOINT RESOLUTION No. 35.

Relative to acquisition of title under homestead law.

Be it resolved by the senate of the fortieth session of the legislature of California, and the assembly, jointly.

WHEREAS, Sections 2291 and 2297 of the Revised Statutes of the United States, regulating the acquisition of title to public lands under the homestead law, were amended by Act of congress dated June 6, 1912 (37 Stats. 123); and

WHEREAS, The law now requires the cultivation of at least one sixteenth of the land entered before the expiration of two years from the date of entry, and the cultivation of at least one eighth thereof before the expiration of three years from the date of entry and thereafter until the submission of final proof; and

WHEREAS, There is no provision for the grazing of stock in lieu of cultivation on lands chiefly valuable for pasture purposes; and

WHEREAS, Practically all the vacant lands within the Sacramento land district in the State of California are valuable only for grazing purposes and are not susceptible of cultivation; and

WHEREAS, The aforesaid vacant lands should be utilized under the homestead laws by those persons who have made or are entitled to make homestead entries;

Now, therefore, in view of the foregoing we respectfully memorialize our senators and representatives in congress to use all honorable means in securing the enactment of such statute as will better adapt the homestead law to the character of the land still subject to entry and relieve many entrymen, who made their filings under the law as amended, under a misapprehension as to the requirements thereof, thereby promoting the settlement and development of the vast area of public lands subject to entry if grazing of livestock be accepted in lieu of cultivation.

And be it further resolved, That copies of these resolutions be transmitted by telegraph to each of our senators and representatives in congress.

GOVERNOR'S MESSAGE.

The following message from the Governor was received and read:

STATE OF CALIFORNIA, EXECUTIVE OFFICE,
SACRAMENTO, CAL., May 12, 1913.

To the Legislature of the State of California:

Again, in the closing hours of a session of the Legislature of the State of California, in the usual parting message of the executive, I feel that you and the people of our State are to be congratulated. This session has been one of peculiar stress, singularly trying. With a virulence, a hostility and a mendacity never before equalled in our State, the Legislature and the legislators have been attacked. To-day your answer and that of the administration of California is given to the organized conspiracy of detraction that for the past four months has been endeavoring to poison our people. To-day there is presented to California a record of accomplishment by this Legislature, which, if accomplished in any other state in a decade, would be a matter of wonder and pride. A repetition of something of that which you have done is at once your answer to the "special interest" press of the State, your justification to your constituents and your lasting monument as legislators.

You have presented to the people:

1. A comprehensive "workmen's compensation act," which embodies the philosophy of humanity, that has now taken such deep root in the nation, and under which, without injustice to employers, those who are least able to bear the burden of injury may be fairly compensated. By the insurance clauses of this Act, the cost of the care of the maimed and the injured will rest lightly.

2. The "minimum wage law" enables us, after appropriate investigation, to give a living wage to those who most require it.

3. You have added to the existing Act providing for orphans and half orphans so that by co-operation with the counties, the State may provide an adequate mother's pension.

4. You have anticipated the problem which will come to us with the opening of the Panama Canal in increased immigration, and by an immigration law that has met the approval of all familiar with the subject, have afforded us the means to meet that problem and wisely solve it, and to care for those who soon shall come among us, and to prevent their congestion in the centers of population.

5. You have passed many Acts improving the sanitary conditions of those who are compelled to labor and providing for their safety, their health and their well-being. Space will not permit the enumeration specifically of all of the Acts of this character, but their design is in the line of enlightened legislation which no longer can be denied.

6. The attempt has been made to conserve the water and the water power of the State in the "water commission bill."

7. Henceforth, merit alone in the civil service you have preserved by the "civil service bill."

8. Investors have been protected and legitimate enterprises fostered by the enactment of a "blue sky law."

9. By various Acts you have endeavored to preserve common honesty in weights and in measures and to require that those who sell shall honestly deliver what they represent they sell.

10. Elections for county officials are taken, so far as law may take them, from the domain of politics; and hereafter, if the design of the bills you have enacted can be carried out, county elections will be non-partisan in character.

11. By an appropriation of half a million dollars you have carried out the mandate of our people in reference to free text-books and provided for the distribution of text-books to the pupils of the State free of cost.

12. The "abatement and injunction bill" is the endeavor of the legislative authority of the State, in earnest to suppress the evil at which it is aimed, and it transfers the burden of the social evil from woman to property.

13. You have endeavored to reorganize the State Board of Education, finally with due and adequate attention to the elementary schools of the State.

14. By various Acts you have sought to ameliorate the conditions of the children who are compelled by dire necessity to toil, or who require the protection of the State. I cannot, within limited space, describe all of the Acts in this regard, but they go forward in behalf of those who most need our nurturing care and protection.

15. You have sanctioned the investigation of the system of rural credits in vogue in European countries and have provided the means for that investigation, so that if desirable, ultimately it may be applied to our State for the benefit of our farmers.

16. By appropriations, commensurate with the needs, you have made the great University of California the laboratory for all the people. In enlarging the University Farm, enabling the best talent to be obtained and giving the money necessary for the tremendously increased work that is contemplated, you have at last placed the University of California close to the soil of the State, and have conferred incalculable benefits upon the farmers and horticulturists of the State.

Of course, a great constructive work cannot be done without great cost. To provide and distribute free text-books will require more than half a million dollars; to put the "workmen's compensation law" into effective operation means the expenditure of some hundreds of thousands; to erect another hospital for the insane in the south, that is rendered absolutely essential by the crowded condition of the State's patients there, requires a quarter of a million or more. In these three items expenditures run over one million dollars, but all are essential and the expenditures will readily be acquiesced in by all patriotic citizens.

I have not attempted to set forth a tithe of that which this Legislature has done. Some only of the more important measures in this parting do I call to your attention. If these measures be "freak measures" and those who have enacted them be "freaks," we may well bear all the odium that may come from the application of that term. With this sort of "freak" legislation, you may return to your constituents with the consciousness of a duty well-performed and with the lasting gratitude of the thinking, unselfish, patriotic people of the State of California.

HIRAM W. JOHNSON, Governor.

WHEREAS, The progress, happiness and prosperity of the people of a nation depend upon a homogeneous population having mutual aims and high aspirations for the protection of the home, for guarding the interests of labor, for the encouragement of industry and for the dissemination of knowledge;

WHEREAS, The influx from the overpopulated Asiatic nations, of people who are unfit for American citizenship and for assimilation with the Caucasian race, whose

aims and purposes are not in sympathy with our people, has resulted and will result in lowering the American standard of life, the dignity and wage-earning capacity of American laborers and the development of the national qualities needed to accomplish the destiny hoped for by the fathers and patriots of the republic:

WHEREAS, The acquisition and holding of agricultural lands in the State of California and other states of the Union has already disturbed, and will continue if not prevented in some legal way to seriously disturb, the economic and social welfare of the people;

WHEREAS, In the State of California there exists a large number of agricultural communities where the evils growing from such acquisition and holding of agricultural land demand early correction at the hands of the state and nation within the respective jurisdiction of each;

WHEREAS, The Legislature of the State of California, by virtue of its sovereign right in the premises, which rights it hereby asserts, has passed a law intended to remedy this evil;

WHEREAS, There is now in force between the Government of the United States and the Empire of Japan, one of the Asiatic nations affected by the provisions of said law, a treaty granting certain rights and privileges to the citizens of each nation;

WHEREAS, It is reported that the Empire of Japan, one of the contracting parties to said treaty, is alleging that the State of California is exceeding its authority as a state, by the passage of said law;

WHEREAS, Pending consideration by the Legislature of the State of California of such law, the Hon. William J. Bryan, Secretary of State of the United States, representing the President of the United States, in a conference with the members of the Legislature, expressed the following sentiments: "The President has impressed upon me at all times that I should emphasize the fact that his only purpose is to confer with the Legislature as to the national and international phases of the question under consideration, and that he confers not as an unsympathetic friend, but as one who desires to aid to the extent of his ability where he has not only a constitutional duty to perform, but where he may be assumed to be able to judge of the effect of legislation upon our relations with other countries."

WHEREAS, Having full confidence in the patriotic desires of the President of the United States to protect the rights of the people of the several states, and recognizing the obligations imposed upon him as President to maintain the national honor, in behalf of the people of California, the members of the Senate and Assembly express the hope that all questions at issue between the Empire of Japan and the Government of the United States be considered and adjusted by diplomatic means at as early a date as can possibly be arranged consistent with the rights of the two governments and those of the people of the State of California; therefore, be it.

Resolved. That the President of the United States be memorialized to initiate diplomatic negotiations between the United States and the Empire of Japan with a view of adjusting any differences that may exist between the two nations, and also to make effective the desires of the people of the State of California, to stop the further purchase of agricultural lands within the confines of said State: be it further

Resolved. That the Legislature of the State of California also memorializes the Senate of the United States to lend its aid to the people of the State of California in securing the relief they so much desire; be it further
